SOIL TESTING IN ALBERTA

Have your soil tested at the Provincial and Food Testing Laboratory at the University of Alberta. The advice to farmers of the province from Chief Analyst D.H. Levey, Although out-of-the-province laboratory tests may be very satisfactory for the areas for which they were developed, he says, they can be misleading and costly when applied to Alberta soils and conditions.

There's more to it than the actual test, says Mr. Levey. The sampling procedure is simple and not too exacting, although it must be done carefully and according to directions. We have soil sampling kits, data sheets and printed instructions at our Freely Main office.

We can also furnish copies of the bulletin "Soil Testing in Alberta," which provides full discussion of sampling and of the soil testing system practiced here.

When the sample is received at the laboratory, tests for nitrogen, phosphorus, and potassium are conducted and measurements of soil acidity or alkalinity taken. If saline problems are suspected, sulphate, chloride, sodium and magnesium content is investigated.

But the soil sample itself is not enough. Certain information is required from the farmer on a specially prepared form. To

Letter To the Editor:-

There has been some criticism of the rate payers of Drayton Valley for desisting a recent proposal to borrow \$50,000.00 for part of the cost of an open-air swimming pool. No doubt those in favor have given serious thought to all aspects of this proposition but it must be made clear that those of us who voted down this project were not guilty of acting on impulse.

Even those in favor of building the pool admit that estimates based on operations of similar pools in other towns would indicate that repayment of the debt would be made in about 10 years. Even if the pool were built and operated for an average annual sum of \$10,000.00 per year - about \$1,000.00 per month. These estimates say that it is money well spent. We feel that, even if our citizens can afford the replacement tax increases, an out-of-pocket expense of \$10,000.00 per year is an expensive luxury and more practical expenditures should come first.

If there is a property tax increase it is likely to cause rates to increase. Prices of real estate and goods are to increase. Unless parking rates to increase. Citizens with common sense make it quite plain that they are not content with the present value. In view of all this many of us feel that the only reasonable move is to vote "no" when this proposition comes up again on April 1st.

Allen Deby.

WELCOME TOASTMISTRESS DELEGATES AND VISITORS

CAR STOLEN IN D.V.

Muriel Macure is speech contestant representing Pembina Club.

An exciting ninety mile chase involving three stolen cars started at Drayton Valley and ended with three youths being held in Edmonton.

Romy Meyer, son of Mayor Addison Meyer came out of the curling rink early Saturday evening to find the family car gone. R.C.M.P. were immediately notified and got on the trail of the stolen car which was speeding toward Wabasca.

At Wabasca the three boys abandoned the Meyer car and drove off in a second car parked nearby and bearing Saskatchewan plates. Pursued now by both Drayton Valley and British R.C.M.P. the stolen car went through a police road block at Thorby, almost running over the Thorby Town Policemen and on towards Caman.

Here the car hit a ditch; the three boys climbed out and into a Cabana car parked nearby. At this point the Leduc and Edmonton R.C.M.P. took up the trail and picked up the boys, one from Drayton Valley and two from Milton, just outside of the Edmonton City limits. (Cont. on page 10, Col. 1)
